Attest: October 26, 2006 THURSDAY

### PLEASE HELP US TO MAINTAIN YOUR GOLF COURSE

- Replace divots, repair ball marks, enter and exit bunkers from their lowest point, rake bunkers, and keep pull-carts off greens, collars and tees.
- Only non-penetrating golf spikes or spikeless footwear is permitted.
- Greens fee ticket is valid on date of sale and for one round only.
- Rain checks for 18 hole ticket holders are issued when the course is closed and only to players who have not completed five holes. Rain checks for 9 hole ticket holders are issued when the course is closed and only to players who have not teed off.

## SAFETY - FIRST AND ALWAYS!

Mark Twain once said, "Golf is a good walk spoiled." Unfortunately, his comment could come true, if you do not observe basic safety rules!

## LIGHTNING

Electrical/thunderstorms represent a serious threat to life. When a storm threatens, immediately discontinue play and leave the golf course. If you cannot leave, seek protection in a lightning/rain shelter, facility building, in dense woods, or low lying bunkers.

## GENERAL

Be sure that others are out of range before you play through.  
Stand behind and away from a player making a shot.  
Yell "fore" to warn others of an errant or upcoming shot.  
Never throw a club, ball or other object.

## ENVIRONMENTAL CONDITIONS

You must take precautionary measures to avoid the physical stress associated with heat exhaustion, dehydration and exposure to the sun. Wear a hat, use a skin protector and drink sufficient fluids.

You may be exposed to a variety of insect bites, including those of the American Dog Tick, Deer Tick, bees, wasps, hornets, and mosquitoes. Consult with your physician regarding use of insect repellents. Avoid walking in tall grassy areas and woods. If bitten seek assistance from our first-aid staff.
